What a shame  
We all became such fragile, broken things  
A memory remains just a tiny spark

I give it all my oxygen  
So let the flames begin  
So let the flames begin  
Oh glory, oh glory

This is how we'll dance when  
When they try to take us down  
This is what will be, oh glory

Somewhere weakness is our strength  
And I'll die searching for it  
I can't let myself regret, such selfishness

My pain and all the trouble caused  
No matter how long  
I believe that there's hope  
Buried beneath it all and  
Hiding beneath it all and  
Growing beneath it all and

This is how we'll dance when  
When they try to take us down  
This is how we'll sing, oh

This is how we'll stand when  
When they burn our houses down  
This is what will be, oh glory

Reaching as I sink down into light  
Reaching as I sink down into light

This is how we'll dance when  
When they try to take us down  
This is how we'll sing, oh

This is how we'll stand when  
When they burn our houses down  
This is what will be, oh glory
