(Verse)

What a shame, what a shame we all remain  
Such fragile broken few  
A beauty have the trade  
But if was opposed  
Should wings still there are darkened glimpses deep in  
my heart  
What once was blazing like now  
There's a tiny scar

Oh glory, come and find me  
Oh glory, come and find me

(Chorus)

Dancing all alone  
To the sound of an enemy's song  
I'll be lost until you find me...  
Fighting on my own  
In a war that's already been won  
I'll be lost until you come and find me here, oh glory  
Here...

(Verse)

What a mess, what a mystery we've made  
Put loving in the simple things  
Loving to forgive  
Even when it was an odd mistake  
I question every human  
Who won't look in my eyes  
Scars left on my heart formed buttons in my mind

Oh glory, you will find me

(Chorus)

Dancing all alone  
To the sound of an enemy's song  
I'll be lost until you find me...  
Fighting on my own  
In a war that's already been won  
I'll be lost until you come and find me here, oh glory

Like the moon, we borrow our light  
I am nothing but a shadow in the night  
So if you let me, I will catch fire  
To let your glory and mercy shine
