I don't care if you're sad and down,  
I'm fed up with you moping around,  
You're a self-centred loser and you make a big deal,  
Grow up get lost and get real

Chorus:

I Won't be your shoulder to cry on,  
I won't be the guy you rely on,  
I won't be your Mr.Reliable,  
I'm always right and friendship's deniable

You're becoming such a bore,  
Don't want to be your loser friend no more,  
I'm losing my sanity because of your vanity,  
I think you'd better face reality.

Chorus

There's nothing wrong with you at all,  
You're just seeking attention,  
It's not my problem anyway.

I don't care if you're sad and down,  
I'm fed up with you moping around,  
You're a self-centred loser and you make a big deal,  
Grow up get lost and get real

Chorus x2
