Let's talk about aesthetic:
Why don't you take her out for lunch?
You are both young and she's good looking.
She's a good match, think about it.

Let's talk about business:
What are her thoughts on having kids?
Does she want to study and get a job?
Is her education worth it?

Have you already asked her out?
She's looking at you,
It's time make a move
And offer her some drinks.
Don't stare, don't touch,
Take care of your appearance!

Let's talk about the future:
You'll have to work hard but it'll pay off in the end.
Romantic candlelight dinner, white wedding.
Get in touch, she is hot,
Some chances never appear again.

Have you already asked her out?
