Oh babe you're gone and I am not fine
Oh I am not fine and I'm missin' you so

Thinking of the days when you were mine
I can't believe now it's time
To let you fly away
Coz' I know you can't stay

Chorus

But maybe someday soon
You'll come back home into my arms and say
"Dear I love you so and that's all I want you to know"

These tears that I fight
Their shadows cover my sight
My heart's forever yours
But you've gone so far way

If happiness is all you want to find
Knowin' true love is blind
I'll be glad to set you free
My inspiration, you'll always be

And maybe someday soon
You'll be coming back into my arms and say
"I didn't mean to hurt you so, I will love you with my all"

And someday if you'll be coming back into my arms I'll
say,
"Oh babe I really love you so and that's all I really
know"
