My life is music and music is life, sweet sounds to help
you take flight.

My life is music and music is life, sweet sounds to help
you take flight.

Listen to the sounds in your ear, treat music to smooth
your fears.

Sometimes I can't help but cry, as the music takes me
high.

My life is music and music is life, sweet sounds to help
you take flight.

My life is music and music is life, sweet sounds to help
you take flight.

Listen to the sounds if you're in, as you fly into the
atmosphere

To another place and time, treat music to smooth your
mind.

My life is music and music is life, sweet sounds to help
you take flight.

My life is music and music is life, sweet sounds to help
you take flight.

My life is music and music is life, sweet sounds to help
you take flight.

My life is music and music is life, sweet sounds to help
you take flight.

My life is music and music is life, sweet sounds to help
you take flight.

My life is music and music is life, sweet sounds to help
you take flight.

My life is music and music is life, sweet sounds to help
you take flight.

My life is music and music is life, sweet sounds to help
you take flight.
