[Paris Hilton]

I can't believe what we did last night
I wanna wake up in the morning sun
Falling over, Telling everyone
I can't believe what we did last night
I wanna say oh my God, that was so much fun,
I'll never forget it, telling everyone about last night

[Lil Wayne]

Last night was awesome
Super fucking awesome
It was me, myself and I and her
We had ourself a foursome
And I didn't want the night to end
Parka sent me Vicodin
Now I'm gone, like the wind
And if you're the bomb, I'll bite the pen, boom
Whatever, I can love you better
Bust her wide open for a truck piss sweater
Man I can make you put a lil dirt, get with her
And it's been world piece since I met her
Last night I had fun with her
I got 99 problems, not one with her
And excuse my French, but f**k the cameras
I wanna spend a night in Paris,

[Paris Hilton]

I can't believe what we did last night
I wanna wake uá¹— in the morning sun
Falling over, Telling everyone,
I can't believe what we did last night
I wanna say oh my God, that was so much fun
I'll never forget it, telling everyone about last night
