"Not Leaving Without You"

Visit "[Not Leaving Without You](#)" on MotoLyrics.com

I got my eye on you boy
I got my eye on you boy
And when I get my eye on something it's like search
and destroy
There's no running away
Not a game that I play
I wanna get to know you
So come on

We can dance, we can dance, we can dance, we can
dance tonight
Come on just move your body
Come on just move your body
We can dance, we can dance, we can dance, we can
dance tonight
'Cuz your the one that I like
Don't ask me for my number
'Cuz my number's undercover
Don't tell me that your going I just got here and I'm
hoping

I'm not leaving without you
I'm not leaving without you
So stop looking at the clock
'Cuz baby time's on my side
Tick tock, tick tock
Soon you'll be mine
I wanna know things about you
I'm not leaving without you

We can dance, we can dance, we can dance, we can
dance tonight
Come on just move your body
Come on just move your body

So whatcha got on your mind?
Whatcha got don't hide
I need to know that there is something more to you
then those eyes
I need someone who's sweet
Someone who wants me for me
And when I'm not around he's not gonna cheat

We can dance, we can dance, we can dance, we can
dance tonight
Come on just move your body
Come on just move your body
We can dance, we can dance, we can dance, we can
dance tonight

'Cuz your the one that I like
Don't ask me for my number
'Cuz my number's undercover
Don't tell me that your going I just got here and I'm
hoping

I'm not leaving without you
I'm not leaving without you
So stop looking at the clock
'Cuz baby time's on my side
Tick tock, tick tock
Soon you'll be mine
I wanna know things about you
I'm not leaving without you

We can dance, we can dance, we can dance, we can
dance tonight
Come on just move your body
Come on just move your body

I wanna know whatcha dream about
I wanna know whatcha thinking now
I wanna know whatcha dream about
I wanna know whatcha thinking now
And when the lights go down and you come around
Let me see what it's all about
I wanna know whatcha dream about
I wanna know whatcha thinking now
And when the lights go down and you come around
Let me see what it's all about
I wanna know whatcha dream about
I wanna know whatcha thinking now
And when the lights go down and you come around
Let me see what it's all about
I wanna know whatcha dream about
I wanna know whatcha thinking now
And when the lights go down and you come around
Let me see what it's all about
