Everybodys lookin' at me,  
But that's alright I like attention.  
The clubs not hot until I walk through,  
They stop and stare and watch me move.

Like damn, [I like that]  
I'm sexy and you know it, clap your hands, [Its like that]  
I'm not afraid to show it, understand. [I'm hot, bitch]  
Don't be mad at me, go check your man.  
Girls and boys are looking at me I can't blame them  
'cause I'm sexy.

Don't care who's watching me,  
I do just what I want.  
Just because I dance with you  
Don't mean your getting some.  
Don't get excited, baby.  
Cause I might turn you on.  
Turn you on, turn you out.  
Give you something to write about.

All the boys are lookin' up at me,  
As I dance on the tabletop.  
Tonight I'll be your liquid dreams,  
They want a piece of what I got.

Damn [I like that]  
Shes sexy and she's shakin on me [Its like that]  
I'm hot and I can't take it I mean it I need a drink [Yeah,  
Im hot bitch]  
Shes cooler than I ever thought she'd be  
Girls and boys are looking at me I can't blame them  
'cause I'm sexy.

Don't care who's watching me,  
I do just what I want.  
Just because I dance with you  
Don't mean your getting some.  
Don't get excited, baby.  
Cause I might turn you on.  
Turn you on, turn you out.  
Give you something to write about.

Don't dance to close I might turn you on.  
Don't try to impress me my papers long.  
We can dance all night,  
But you aint get to none, none.  
Sorry I turn you on.  
Take a cold shower when you get home.

Girls and boys are looking at me I can't blame them  
'cause I'm sexy.

Don't care who's watching me,  
I do just what I want.  
Just because I dance with you  
Don't mean your getting some.  
Don't get excited, baby.  
Cause I might turn you on.  
Turn you on, turn you out.  
Give you something to write about.
