Tie me up and leave me here
Until I finally break away
Its best if you just stay clear
Im the fool who fell for your mistakes
What am I supposed to say
You left me with a bad day
Your bringing me down
Like Ive never felt
Unlock the door and let me in
Its no surprise Im here again
Read between the lines
My face shows everything
Im the fool who fell for your mistakes
What am I supposed to say
You left me with a bad day
Ill break you out
I broke you in
Don't let me down
Its sink or swim
Your time
My space
Says everything
Your bringing me down
Like Ive never felt
Don't bring me down
