Im feeling sick but better than before  
Its all inside my head  
Im burning up but I just can't ignore  
The little things you said  
Heres the note I wrote  
I hope you know I let it go  
But Im still fighting pride once again  
And tomorrow wont be so bad  
Youll find a way  
Youll find a way to make it through  
I know to wait it's hard to say but Im in pain  
The picture fell I knew to well  
I can't escape  
Crawl inside see what lies beneath you'll wait  
Im opening my hands to you  
So here I am are you awake  
And where do I belong  
Have I been a victim all along  
Build me up then break me down  
Build me up then break me down again  
Tomorrow  
It wont be so bad  
Youll find a way  
Once again
