Everything is on the one
Everything is on the one
Everything is on the one
Everything is on the one
Everything is on the one
Oh, remember that

Everything is on the one today y'all, now hit it
Everything is on the one today y'all, and don't forget it
Everything is on the one today y'all, that's where it's at
Everything is on the one today y'all, now get to that

Everything is on the one
Everything is on the one
Everything is on the one
Everything is on the one
Everything is on the one

Everything is on the one today y'all, now hit it
Everything is on the one today y'all, and don't forget it
Everything is on the one today y'all, that's where it's at
Everything is on the one today y'all, now get to that

Everything is on the one
Everything is on the one
Everything is on the one
Everything is on the one

Everything is on the one today y'all, now hit it
Everything is on the one today y'all, and don't forget it
