Feed by perfection  
Not by revolution  
Path of the mass  
Production chain of society  
You bleed I bleed but that doesn't hurt

Lack of diversity the sky is always black (x2)

You're the next to fucking die  
The same way as yesterday  
Crushed by the hammer  
Of the supreme master  
White is white, black is black  
Say what you have to say

You bleed I bleed but that doesn't hurt!  
Addiction to illusion

The highway is without exit  
Addiction to a way where illusion is pretty

The highway is without exit  
Addiction to a way where illusion is pretty

Followers fall on their knees  
When the black sky turns white  
They find other way to run (x2)  
Addiction to illusion (x2)

You're the next to fucking die  
The same way as yesterday  
Crushed by the hammer  
Of the supreme master  
White is white, black is black  
Say what you have to say

Once upon the end  
Addiction to illusion  
The poor story of a society  
Where everyone finishes in the pit!
