Welcome to a world of terror!  
Where hatred, intolerance and stupidity prevails  
Where liberty and innocence are tarnished by screams  
and blood  
Where blinded slaves of integrism fall on their knees  
And follow the regime of holy terror

Desperate by their hopeless cause  
Guided by so-called pure religious leaders  
They find a way to save their souls

Slaves of integrism, blinded by faith  
You try to impose this regime of hate  
You try to install a life of terror  
Total insecurity.....

Always invoking the jihad

You try to involve your own nation  
In an endless and worthless war  
It's so easy, foolish!!!

Desperate by their hopeless cause  
Guided by so-called pure religious leaders  
They find a way to save their souls  
Immortalized by suicide (x2)

Regime of... regime of... regime of...  
Regime of... regime of... regime of...  
Holy terror... holy hate

Desperate by their hopeless cause  
Guided by so-called pure religious leaders  
They find a way to save their souls  
Immortalized by suicide
