Breathe in breathe out  
That's what they said to me  
She says with a smile  
I look into your eyes and I see home  
She's all he has left  
She falls to the floor and time stands still  
He kneels to her side  
I can't breathe  
Heart attack  
Oh doctor  
Wake up  
This can't be real  
Don't leave me baby no  
Eyes rolled back and it's taking it's hold on you  
Oh god I'm right here  
Someone please do something  
Close your eyes  
Don't turn your back on me  
I've never been as good as you to hold my head up  
high  
Hold your breath  
This won't hurt a bit  
I am alone with everything and I'm on my own again  
There's something missing deep inside of me

Wake me up  
As my mind drifts away from my body I see myself toss  
and turn  
And I can't be the one to wake myself up from the  
deepest sleep I'll ever know  
Awake me from sleeping  
Awake me up
