"Travelling Song"

Visit "[Travelling Song](#)" on MotoLyrics.com

This is your travelling song
And I hope it sees you well,
Through train rides and hotels

This is your travelling song,
And on the window of the train
With your finger write my name

Well I could sell my watch and buy a ticket
But, my dear, I fear I wouldn't leave
So this is your travelling song, my love,
I hope you find everything you need

This is your travelling song
So here's one for the road,
The highway in the cold

This is your travelling song
And I won't ask you to stay
'Cause life don't work that way
Well I can try and fit inside your suitcase
But my feet would stick out of the end

So this is your travelling song, my love,
Come find me when your travelling ends
Oh, this is your travelling song, my love,
Come find me when your travelling ends
