### "Close To Life"

I keep on running  
every day  
seeing resting flowers  
frost in the dark  
dark

Close to life each day  
the spirit's near  
She's close to life each day

It's getting closer  
I feel the air  
Something's moving inside  
catching the spark  
star

Close to life each day  
the spirit's near  
She's close to life each day

She is closer every  
She is closer every day

Close to life each day  
the spirit's near  
She's close to life each day

Close to life each day  
her spirit's near  
She's close to life each day

Close to life each day  
Each day
