"I'll Never Be"

I'm walking away
and I'm looking back
I see all those places
I see all the past

Feel no love
Feel no joy

I'll never be satisfied
Always been searching for better life

There's always someone
who's better than I
I don't think that's fair
but I still keep on trying

Ain't no love
Ain't no joy

I'll never be satisfied
Constantly reaching for something fine
I always need
the one I can't see
Only been waiting for the feeling

I'll never be satisfied
Always been waiting for better times
The grass's always greener
on the other side
Always been hoping for feeling high

Oh high
So high
Feel all right

I'll never be
