"Baby Honey"

Visit "[Baby Honey](#)" on MotoLyrics.com

If I wish upon a star
Take you just the way you are
And if I do something for you
It's everything I do for you

If you're feeling down and out
Oh I want to make it right
If the love you feel is true
Please let me share it with you

If you wish upon a star
Take me just the way I am
And if I do something for you

It's everything I do for you

If I'm feeling uptight
I want you to make it right
If the love I feel is true
Then I want to be with you

There is magic in her fingertips
There is magic in the lips I kiss
There is magic in her beautiful eyes
Justify the tears I've cried
