"Exploration Team"

Visit "[Exploration Team](#)" on MotoLyrics.com

Everyone should have a friend
To share your life and your heart
It's not all you need
But you would bleed for them
Everyone gets hurt, everyone gets stuck

Everyone should have a friend
To lead and to follow
To open up to and to lose control

Someone to explore

The north pole, south pole
Exploration team
Soft core hard core
Polar extreme

And we'll be lost
And we'll be found
And we'll be bound
To the friendship that we found
