"Fragile Gang"

Pixelated pictures
Moments without sound
Will we all go down
Will we all go down
Isolated lives
And luminous lights
From the edge of a city
The patterns look so pretty
But you've seen it
One time too many
And don't know now
Will we all go down?
Will we all go down?
Fragile for each other
And dying to discover
Will we all go down?
Will we all go down?

Will we all go down?
Will we all go down?
Strangers in a crowd
The music is so loud
Dots joining up
Lights lighting up
But it wouldn't be so bright
If you're not there
I'll pay your fare
I'll meet you there
Will we all go down?
Will we all go down?
