Abro los ojos  
solo para no estar dormido  
eres la nueva realidad  
cuando estoy sin ti estoy perdido  
Cierra tus ojos  
para imaginar que estoy contigo  
solo una dosis nada mas  
para estar los dos perdidos.

Come and show me your face  
come and tell me who you are  
kiss me while the night is dark  
cause I don't know where to start.  
Tell me who you are (dime donde estas), ahhhhh,  
ahhhhhh  
Tell me who you are (dime donde estas), ahhhhh,  
ahhhhhh

Abro los ojos solo para estar abajo  
siempre la misma realidad en mis oidos  
abro mis manos solo para estar tan frio  
siempre la misma soledad cuando dormimos

Come and show me your face  
come and tell me who you are  
kiss me while the night is dark  
cause I don't know where to start.  
Tell me who you are (dime donde estas), ahhhhh,  
ahhhhhh  
Tell me who you are (dime donde estas), ahhhhh,  
ahhhhhh  
come and tell me who you are  
come and tell me who you are  
tell me who you are  
come and tell me who you are.
