[HOOK]

I been in this game for years,
It made me an animal,
I fallin and I cant cant,
I been in this game for years,
It made me an animal,
I been in this game for years
It made me an animal,
I fallin and I cant cant,
I been in this game for years,
It made me an animal,
Animal

[VERSE 1]

These lil niggas,
Got no idea bout how I got here,
Hard road traveled nigga
Blood sweat gravel,
I done seen niggas battle,
Knew the dirt and neva tattled,
OG's know I'm solid,
Imma concrete statue,
Never got an earring, gold teeth, nor a tattoo,
Wolf in sheeps clothes,
Curren\$y in creep mode,
Even though it's strength in numbers,
I tend to fall back in my world without my brothers,
Figure out what my purpose on this earth is,
Because I know it got to be about more,
Than stuntin and fuckin whores,
I done drove every car,
And bought everything out the store,
Crib with marble floors,
But i still get bored,
I figure that I escape the madness,
Cuz I'm rappin,
But I'm just as stressed out as my lil homie who trappin,
Smoke and got asthma,
And I know that's ass backwards,
Fly and spit fire I'm a dragon..

[VERSE 2]

Night fall I'm in the whip,
Or I'm in the club,
In the vip,
With my paws on anotha niggas bitch,
Knowin that I got my own,
She's at home,
But still I roam,
Cause I don't know what she doin when I'm gone,
It done happened before,
And I prolly got more shit commin,
From fuckin wit my old homeboy woman,
And I don't even know why I did that,
He'll prolly try to kill me,
If he knew where i lived at,
Prolly neva speak again,
And I cant blame em,
Last thing he said was that I'm changin,
And I ain't even halfway famous,
But once this hustle becomes apart of you,
It hardens you,
Puttin darkness in the heart of you,
Homie I only got 1 in my heart for few,
And that's my crew,
And with those dudes,
I hunt for food,
Candle ass niggas betta move,
Forreal
