Still rolling in my Elco on them thiz-angs
N! ggass fucking up. They ain't fucking with the pliz-
anes
Hits from the bong, Cali strong, got me feeling like I...
Could kill a man, but I would rather kill a baseline
These coke laced lines, too dope for most they turn
their noses up
Real n! ggass turn the music up more
Lookin out the cracked windows, sound and the smoke
Got u high off both. Drugs, audio.
Yall ain't got the heart for it. Get ur cardio, in order bro
Running for the money, pockets double-stuffed... Oreos
Party over here. B! tches feeling like sh! t in the
morning tho
It's the sh! t! Life with the Jets, with fair warning.
Hoe call who u gotta call before we be off I live far
And ur phone mite not have bars
Babydoll break that weed up for me
I break u off something, have u running ur mouth,
leading ur friends to me

(Chorus)(sung)

Ahhh
This is the life.
Break down, then roll up.
This is the life.
Ahhh (lames catch feelings)
This is the life.
Poolside, on rooftops (Jets count millions)
This is the life.

Motor under glass like a pheasant
Jet plans under wraps like presents
Stayed in my lane, gained leverage
Executives checked my credit was merited
We hustling together better than
Going in blindly. Expectations not met
Fools get ejected. Dropped like a Pharcyde record
Gone into hiding like the canvas top of what I driving
now
Riding up the block they think I'm moving in the autobot

Hop out, photo op. Scan for the cops. If they not about...
Light something for the cool n! ggas
Roll another one for the ride
Keep that bag that's all u n! gga. I'm out.
On another mission, steady paper twistin
Even when I was a broke n! gga, b! tches paid attention
On another mission, steady paper twistin
Even when I was a broke n! gga, b! tches paid attention

(Chorus)(sung) times 2

Ahhh

This is the life.

Break down, then roll up.(lames catch feelings)

This is the life.

Ahhh

This is the life.

Poolside, on rooftops (Jets count millions)

This is the life
