living with my eyes closed
goin day to day
i never knew the difference
never cared either way
looking for a reason
searchin for a sign
reachin out with both hands
gotta feel the kick inside
all fired up

chorus

will you believe there comes a time(all fired up)
when everything just falls in line (all fired up)
we live and learn from our mistakes (all fired up)
the deepest cuts all heal by fate (all fired up)
fired up fired up fired up

hey...anybody livin' in a perfect world
everybodies out there
crying over hurt
but i've got a new fire
burning in my eyes
flyin the darkness
moving like a meteorite

chorus x 2

now i believe there comes a time
when everything just falls in line
we live and learn from our mistakes
the deepest cuts all heal by fate. (x 3) now i believe

chorus x 3
