Get nervous, get nervous
Get nervous, get nervous, get nervous
Get nervous, get nervous, get nervous
Get nervous, get nervous

I'm feeling a little shaky
I can't control my nerves
I know you think I'm faking
But can't you feel the curves?
I swear to you I feel it
It scares me half to death
Gathers in my throat
and it gathers up my breath

Anxiety- Got me on the run
Anxiety- I just need someone
Anxiety- Can't get nothing done
Anxiety- Spoils all the fun

(chorus)
I'm picking up the telephone
There's no one I can call
I need somebody bad tonight
Can't find no sleep at all
I wish I could relax
I just can't stop my mind
I wish I could collapse
But my body's not that kind

(chorus)

Cant' you hear my heart beat?
Hear the way it sounds
Can't you hear my heart beat?
Hear the way it pounds
Just give me someting to slow it down!!! Yeah!
