I want to be somebody's baby
Someone to have me, somebody to love
I want to be somebody's baby
Someone who needs me, somebody to love

Words can't describe the way that I'm feeling
Deep down inside, girl, I'm crying for you
The tears in your eyes, there's something revealing
Making me feel like I'm some kind of king

I want to be somebody's baby
Someone to have me, somebody to love
I want to be somebody's baby
Someone who needs me, somebody to love

Words can't describe the way that I'm feeling
Deep down inside, girl, I'm crying for you
The tears in your eyes, something revealing
Making me feel like I'm some kind of king

So let me tell you about it,
I want to be somebody's baby
Someone to have me, somebody to love
I want to be somebody's baby
Someone who needs me, somebody to love

Ooh baby, now that you are by my side, everything's
gonna be alright
Ooh baby, now that you are by my side...
