"Soulful Love"

Visit "[Soulful Love](#)" on MotoLyrics.com

I try hard to do my best, to bring about words to
express
To show you how much I appreciate your soothe and
tenderness
But who can define soulful love?
How in your mind, I still can't find the way to say
You've got soulful love

It seems the more I have to say, just keeps me further
away
The most sincere thing on my mind I could never
unwind
But who can define soulful love?
How in your mind, I still can't find the way to say
You've got soulful love

You've been the only girl in this world who means so
much to me
I've found out when I go, I didn't know how much I
needed someone like you
To bring about happiness when things are blue

But who can define soulful love?
How in your mind, I still can't find the way to say
You've got soulful love, soulful love
You've got soulful love, soulful love
You've got soulful love, soulful love
You've got soulful love, soulful love
