There comes a time when every man's heart gets
weary
There comes a time
There comes a time when every man's heart gets
weary
There comes a time

For my knee's getting weak, and my brain's getting
shallow
Old friends say they don't know what's the matter
I don't know just what to do, if you could help me to

There comes a time when every man's heart gets
weary
There comes a time
There comes a time when every man's heart gets
weary
There comes a time, I'm gone now

For my knee's getting weak, and my brain's getting
shallow
Old friends say they don't know what's the matter
I don't know just what to do, if you could help me to

There comes a time...
