"Where Music I Go"

Visit "[Where Music I Go](#)" on MotoLyrics.com

Where must I go if there's no place that I know
I used to go where you were going,
But now you're gone and I'm alone
I need you, I'm alone, I need you

If there's a place you must be near me always,
I'll never make it by myself, you know I need you
And nobody else will do, nobody else will do

If there's a place you must be near me always,
I'll never make it by myself, you know I need you
And nobody else will do, no one else will do
Baby, baby, I need your love, you got to be near me...
