

## **Pat Mcgee** **"All Around Us"**

Visit "[All Around Us](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We cannot feel it, but we know it's all around us.  
We cannot see it, but we know it's looking back at us.  
Its the sense of all senses touching us in the kindest  
way.  
Don't bother to show me, it's always the same way

Chorus

And were trying to get there tomorrow  
Everyday is worse than it seems  
There an be a better way I know  
There can be another way but youve got to show  
All around these towns, everyday is worse than it  
seems

We cannot feel it but we know it's all around us  
We cannot find it, but we know we like the shape of it  
What we put in the first time is what can expect  
Back from all the expectations that bring us back to  
home base

We cannot feel it but we know it's all around us  
We cannot find it but we know it's been lost in us  
Its the sense of all senses touching us in the kindest  
way  
Please don't bother to show me,  
These have been the strangest days
