Visit "[Pride](#)" on MotoLyrics.com

Its been said you should measure a man when he's
been kicked down.
Well this man knows the ways of life on the
underground.
Now passing him by don't you know wont hurt his pride.
Now sympathy aint what he needs to heal his cries.
So load up on your intuition, it's telling you right.
Don't care about his situation, hell be eating good.

Chorus

Now things are looking up for him
Don't forget me now old friend.
Got you through the hardest times.
I know you'll be doin fine.

Its been said you should give your life for another man.
Well all right nows your only chance wed all
understand.
Until you're walking in his shoes don't be knocking?
him down.
When you're looking over your shoulder hell be coming
around.
So don't put him though an interrogation, he's got
nothing? for you.
Let him walk on by in this so-call nation, he's just
passing.
