Waking, shaking, it's 4 a.m., I can't sleep
You're on my mind again
These games, you play, got my dice rolling in the
wrong way
Over before it all begins

You've been playing games right from the start
Your battleship is blowing me apart, yeah
You've just playing clue right from the start
It's me up in your bedroom, the weapon is your heart

Swelling, rolling, with more mario you're strolling
Through the levels of my brain
Red light, green light, grip is too tight (too tight)
But I love it just the same.

You've been playing games right from the start
Your battleship is blowing me apart, yeah
You've been playing clue right from the start
It's me up in your bedroom, the weapon is your heart

I'm sick of looking for you now
This game of hide and seek is done. I quit I'm out.
You always win, I don't know how
This game of hide and seek is done. I quit. I'm out.
