I'll try to make this perfectly clear I'm so transparent I  
disappear these words I lyrically defecate clint steps in  
to establish the beat upon songs I boldly claim to  
create this unique approach to start an EP intended to  
shock, create a mystique a cheap strategy, a  
marketing scheme 4/4 hip hop and you don't stop  
building awareness for the next LP they've got a good  
fan base they've got a DC sound and Chapel Hill  
Around The Early 90's they've got integrity Shudder to  
Think, Fugazi this is the latest from saddle creek some  
melodies are like disease they will infect your  
memories they can inflame your misery they haunt me  
some memories are like disease they can inflame your  
misery they will infect your melody they haunt me I  
write these words with my motherly intuition I shape  
these sounds into harmonic aparitions but I can see  
can see through these haunting things my moldy  
dreams are debased by the same hands that shaped  
them I'm so reflexive i am a mirror I'll try to make this  
perfectly clear these words I'm driving into the ground  
the same words I scream out over the crowd I'm just an  
airwave rolling around There's all these islands out at  
sea I storm and crash without a sound I can't reach I'm  
just an airplane diving down I storm and crash without  
a sound engines exploding silently out at sea where  
waves caress unstable egos where melody is  
completely swallowed where songwriters chain their  
songs sink to the beat to their ankles and bursts under  
pressure 'til it stops and let it let it burst and bloom  
burst and bloom hit song
