Sweet sister now it's time to break away  
Turn the tables, focus on your life  
Dear brother, break your chains to mass so grey  
Well inside you, all the answers lay

Flesh that wants  
Greed to feed  
Cells that split, a new breed

Source of madness  
Spring of death is in your thoughts  
Grand illusions we believe is true

Flesh that wants  
Greed to feed  
Cells that split, a new breed

Inject your thinking, into other human's minds  
Spread the message, spread the seed  
Elect a leader, grow the man that's worth to live  
Mutate from human, into our new breed

Flesh that wants  
Greed to feed  
Cells that split, a new breed

Disorders change the way of man  
Change the path but no one can  
Elect a leader grow a man  
Inject your thinking into man
