Behind secret doors with multiple looks  
In dungeons so deep a secret that shocks  
One person decides distinction or not  
With shaking hands and nerves disrupt

The key to the future the key to despair  
Lies in his hand and this ain't fair  
Cut through the silence red tape and law  
A shock to the system cutting it's claws

[Ref:]

A wave that shocked us all from little shack to building  
tall  
Some kind of wake up call

A fire is breathing feed it with fear  
The horsemen of darkness will appear  
Sent from the heavens at the last day  
The apocalypse will show us the way

Cut through the silence red tape and law  
A shock to the system cutting it's claws  
Searching for justice finding a way  
But revolution will turn the world grey

[Ref:]

A wave that shocked us all from little shack to building  
tall  
Some kind of wake up call

Feed it with fear the end is coming feel it's near

The key to the future the key to despair  
Lies in his hand and this ain't fair

[Ref:]

A wave that shocked us all from little shack to building  
tall  
Some kind of wake up call
