Doom

After the ageless doom  
Mankind resurfaces  
And all the lefts that are left  
Will right the rights with  
Blood

Searing through the years  
You claim inheritance  
You claim that all there is  
Is promised for you  
There's no one, no there has never been anyone  
Who can save you

I commend you pain  
All your hopes draining empty

There's no one, no there's never been anyone  
Who will save you

I commend your pain  
Your numbers are thinning and  
All your dreams are coagulating  
Slow

Full of hate our lasting will punish you hard

And the darkness that surrounds me  
I am wolf hear me  
Roar  
On through your sleepless nights  
By burns you all will be purified  
I am wolf, see me

Hunting through the fields  
You faith will not continue  
Until you everlasting eyes are scalded

We came with the wind  
Survivors of the dust  
Sometime our master will beckon us home  
But until then

We are to cleanse this land  
We are awaiting the awakening hearts  
Of doom  
Your doom

I can see the enemy advancement  
And their numbers are stretched thin
