Marching onward with one cause in mind  
Christians will die!  
Running, screaming, fleeing in fear  
Run for your pathetic lives  
Streets are wet with the blood of life

Bring me the head of Christ  
All sheep fall on your knees  
Bow

Trudging through the halls with weapons in hand  
Call down your God of lies  
We will come, welcome to your demise

Bring me the head of Christ  
Burn he will for all time  
Crawling through the grass  
Weeping in fear, we've found him  
Bring me the head of Christ  
Begging now for his life  
Grab him, take him, crying in fear, cry for me now

Cry
