Vicious wounds cluttered upon my arms  
Many marks I have forgotten  
Steady rush as the nightmares take hold  
Close my eyes to find the pieces  
They are mine. they are mine.  
Widening eyes as the light burns away  
Assure myself I own the heavens  
They are mine.

We are born into submission  
We are approaching the hour  
I can see everything  
We are bound to a poisoned promise land  
We are approaching  
A poisoned promise land

Every scar has a story to fear  
Every line a tale of terror  
Swallowing stones that I should cast aside  
Vomit the pride I should have honored  
I should have honored

A poisonous land  
I don't need your forgiveness  
A poisonous land  
I don't need your forgiveness
