And Iâ'm the only one that stands between the
mastermind and his new plan
The wind is blowing in my air and Iâ'm staring at the
edge and Iâ've come too far
And Iâ've come too far
Stumble around this broken, torn down town
This smoke has entered my throat and I just can't
stand this
This shadow seems to scream but I can barely see, but
I can barely see
Iâ've come too far for this you see, to let you get away
from me
Iâ've come too far for this you see, to let you get away
from me
So let me hit you with my best shot, Iâ'm sure you'd
like to hit me back soon
Iâ've come too far for this you see
Bend over my mouth and I stagger up onto these feet
Iâ'm running at full speed and I can feel the heat, I can
feel the heat
When I see, I will draw my weapon from my sheathe
Iâ've come too far for this you see, to let you get away
from me
Iâ've come too far for this you see, to let you get away
from me
So let me hit you with my best shot, Iâ'm sure you'd
like to hit me back soon
Iâ've come too far for this you see
Iâ'll draw my weapon from my sheathe, hold you down
until you can't breathe
And let you feel just how I felt when the smoke had
entered me
Let you feel just how I felt
Iâ've come too far for this you see, to let you get away
from me
Iâ've come too far for this you see, to let you get away
from me
So let me hit you with my best shot, Iâ'm sure you'd
like to hit me back soon
Iâ've come too far for this you see
You set fire to everything Iâ've got
Take your best shot

Take your best shot
You set fire to everything Iâ've got
Take your best shot
Take your best shot
