intro:

You're more than overly conceited
your head is clouded by the way
your peers crowd around you.

:verse:

attention you have one the award
first place for showing apathy
better than a novelty
it's a shame it's a crying shame
you're a waste of breath you're all the same

:pre chorus:

we are worthless and you enjoy this
a step closer to high school glory and fame
so let's ignore this and let's enjoy this
in five years you'll amount to nothing at all

:chorus:

I'd compare you to
rust on metal
devouring our pride
and I'll give you credit
for being too good
at what you do best
it's ruining our lives

:verse:

take take center stage all these lights
are on you, your light is too bright
for anybody else watch where you step you're sure to
melt

:pre chorus:

apprehensive judgement will lead to your downfall
so get down and beg and plead
you best bite your tongue your words don't mean a
thing

chorus

:breakdown:

your light is too bright for anybody else
watch where you step

:outro:

lights lights camera fake it
your just a punk and you'll never make it
