At the last strike of the chord I couldn't help but hear  
"Oh I like this band!"  
"Yeah, I like his hair"  
But goddammit don't you get it?  
Music's not for your eyes  
It's for your ears  
So I've been feasting my eyes on food for thought  
As a better waste of my time  
I just want to crack open the skulls  
Of all you close minded kids  
Open them up I say

Yeah Humiliation  
By means of applause  
So give the scene another hand  
Because this one is for you all

Lady Giladriel  
All we ask is water and light  
To get us through this night alright  
And I believe  
Won't you please let us stay the night  
To watch this dance between flesh and steel begin  
We ask for water and light  
So I've been feasting my eyes on food for thought  
As a better waste of my time  
I just want to crack open the skulls  
Of all you close minded kids  
To open them up I say!

Yeah Humiliation  
By means of applause  
So give the scene another hand  
Because this one is for you all

When I speak, I speak for all of us  
Cause it never used to be like this  
Love is not for love, it never is... it never is.
