Its hard to believe there are oceans I've never swam in.  
It's hard to believe there are mountains I've never  
walked on.  
I have to get out of here.  
Get me out, you can't stop me.  
Get me out, this is my time.  
I thought I new what this world was about,  
but I was wrong.  
No not another day, will go by I want to never die.  
Ill never let you stoop this low.  
Get me up, get me out, this is my time.

You cant stop me.  
Looks like your time is over,  
Looks like your time is over now.  
All the time I've spent to build this up.  
All the time I've spent to build this up,  
I cant let you do this now.  
You just have been pushed away, you walk on through  
each day.  
I can't let you, live this way.  
I used to have so much faith and motivation, and now I  
have even more.
