Da, da, da, da, da, da, my man
Da, da, da, da, da, da, 'cause I love him
Da, da, da, da, da, da, da, da

My man I love him so, he'll never know
All my life is just this prayer but I don't care
When he takes me in his arms
The world is bright, alright

What's the difference if I say, I go away
When I know, I'll come back on my knees, someday
For whatever my man is
I am his forevermore

Oh, my man, I love him so, he'll never know
All my life is just this prayer but I don't care
When he takes me in his arms
The world is bright, alright

What's the difference if I say, I go away
When I know, I'll come back on my knees, someday
For whatever my man is
I am his forever
