So I stood by the radio  
Waiting for our song  
But no, it didn't come

And I switched to the television  
Waited for the video  
But no, it was long gone

Just like our love  
So fast and it was gone  
Didn't last all day long  
What was I hoping for  
It was too much  
It turned out I was wrong  
We weren't very strong  
And so wasn't our song

For hours I stood like a fool  
Rain quickly fell down  
But no, you didn't come

Dawn said hi to my bedroom window  
Sun was being sun  
But no, you didn't come

(Chorus)

I know nobody's perfect  
But this mess can't be undone  
You stabbed me in the back  
I couldn't hide and run

(Chorus 2x)
