The birds and the bees are flying in the trees
The sun is in the sky just for you and I
The sky is perfect blue, no cloud would spoil the view
It's a sign from above that shows that we're in love

The birds and the bees are flying in the trees
The sun is in the sky just for you and I
The sky is perfect blue, no cloud would spoil the view
It's a sign from above that shows that we're in love

The birds and the bees are flying in the trees
The sun is in the sky just for you and I
The sky is perfect blue, no cloud would spoil the view
It's a sign from above that shows that we're in love

Oh, the birds and the bees
The bees and the birds
Oh, the birds and the bees
The bees and the birds

The birds and the bees are flying in the trees
The sun is in the sky just for you and I
The sky is perfect blue, no cloud would spoil the view
It's a sign from above that shows that we're in love

The birds and the bees are flying in the trees
The sun is in the sky just for you and I
The sky is perfect blue, no cloud would spoil the view
It's a sign from above that shows that we're in love
