I woke up at five o'clock and i couldn't get back to sleep
I kept myself from calling you by watching the TV
But al the faces that i saw they just turned into this
The gentle of your hands and the tender of your kiss
You would do me good
Do you think you could, be yeah
You would do me good
Do you think you could be with me soulfully
Last night you found my house you rang the bell for me
I didn't know you very well i didn't know what it would
be
But I felt so close to you in so little time
And when you said goodnight i spilled my glass of wine
You would do me good
Do you think you could be with, be yeah
You would do me good
Do you think you could be with me soulfully
By the hour of eight am i felt like I'd been up all day
I told myself to let you sleep and then I called
you anyway
I woke you up and heard your smile over the phone
And i thought about you lying there alone
You would do me good
Do you think you could be with, be yeah
You would do me good
Do you think you could be with me soulfully?
