Written by: Patti Scialfa

From the first time that I saw you
I wanted nothing but to make you mine
Now there's this girl with milk white hands
And on her finger your wedding band shines
Still you tempt me with your kisses
Still you tempt me with your charm
Ain't gonna struggle no more with this
Tonight I'm gonna lie down in your arms
And all my fear and all my sorrow
It will disappear
I'll do the right thing come tomorrow
But tonight I'm gonna stay right here
I'm gonna stay right here

Now me I'm just a lonely girl
And I know baby you're a lonely man
And I may never mean more to you
Than a sin that lied waiting in your hands
Still I tempt you with my kisses
Still I tempt you with my charm
Ain't gonna ask but one thing of you
Forgive me darling and I'll forgive you - well
All my fear and all my sorrow
It will disappear
I'll do the right thing come tomorrow
But tonight I'm gonna stay right here
I'm gonna stay right here

Come tomorrow don't you worry baby
Ain't gonna turn the blame on you
Come tomorrow ain't nobody gonna
Make me walk in shame - for loving you
I ain't got no diamonds on my fingers
Ain't got no gold baby in my hands
I know this world don't owe me nothing
So tonight I'm going to take baby what I can
All my fear and all my sorrow
It will disappear
I'll do the right thing come tomorrow
But tonight I'm gonna stay right here

I'm gonna stay right here
