When the snows come  
And the wind blows cold  
Will you hold me  
Like you'll never let go?  
Will you kiss me so sweetly  
And whisper you love me, so?

I have wandered through the mountains  
I have searched the streets below  
But all I ever really wanted  
Was someone to hold me  
And to keep me from the cold

And when the night falls  
And you're fast asleep  
I'll watch over you  
And I'll pray your heart to keep  
So you can sleep easy  
You know you can count on me

I have wandered through the mountains  
I have searched the streets below  
But all I ever really wanted  
Is someone to need me  
And to keep me from the cold  
Baby, keep me from the cold

Oh darlin' when you're sleeping  
Am I with you in your dreams?  
Do I hold you close  
And dance you through the night?  
And when the nightmares come  
Will you let me be the one  
Who kisses you  
And tells you, "It's alright"

And in the morning  
When the light creeps in  
I will hold you  
As you're slowly waking  
I'll kiss you so softly  
And promise I'll never go

'Cause I have wandered through the mountains  
I have searched the streets below  
But all I ever really wanted  
Is someone to need me  
And to keep me from the cold

I have wandered through the mountains  
I have searched the streets below  
All I ever really wanted  
Is for you to love me  
I want you to love me  
And keep me from the cold

Baby, keep me from the cold  
All I ever wanted  
So keep me from the cold  
Keep me from the cold  
Please keep me from the cold
