Did you have a happy birthday?
Even though I wasn't there?
Did you get the flowers I sent you?
When you got them, did you care?

Did you have a happy birthday?
Did our love song make you blue?
Or did you just forget me
In the arms of someone new?

When you blew out the candles
Did you stand there and cry?
Crying because you were happy?
Or sad that we said goodbye?

Did you have a happy birthday?
If you did, it's plain to see
That the party's really over
And you're happy without me

Yes, you had a happy birthday
And you're happy without me
